

## **Bed Bug Policy**

If your student has bed bugs on them or on any of their belongings:

1. A parent/guardian will be notified so your house can be treated.
2. Student's bookbag and outerwear will be kept in a plastic tote in the clinic until your house has been treated and no bed bugs are found on the student or student's belongings (will be checked daily).
3. BPS's Custodial and Grounds Manager will be notified for treatment of classrooms as needed.
